

AMT 165 BR – BOAT FOR THOSE WHO VALUE QUALITY

AMT launches a brand new bow rider, a five meter long 165 BR. This energetic novelty will be launched at the Helsinki boat show in February.

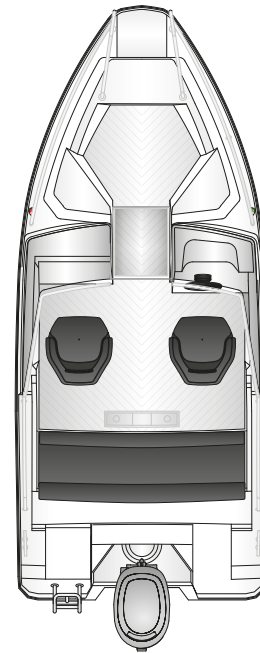

AMT boats is known for their premium quality that satisfies even the more demanding boaters. The novelty 165 BR is 4,9 meters long and can be equipped with a 50-60 hp engine, speed getting up to over 30 knots. The 2,08 wide boat is spacious, stable and safe. Compact size and agility makes it a good boat also for new boaters.

PLEASANT JOURNEY

Thanks to the high windshield and the sturdy one-piece door between consoles, sea journeys are not only comfortable but also dry from sea sprays. Up to three travel comfortably on the stern bench and underneath the bench is plenty of storage space. Unlike many other boats in this size, the 165 BR has a fixed fuel tank. The pilot and co-pilot sit on fully padded comfort seats.

WELL THOUGHT DETAILS

Range of standard equipment on the boat is wide. With the boat comes for example an Axion 9 chart plotter, cushion set, fixed fuel tank, stainless steel railings, lots of storage space with locks, Led steering lights, ropes, anchor and fenders.
